## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the step of synchronizing, as recited in claim 1, the means configured to synchronize, as recited in claim 17, and claim 18, must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The drawings were received on 8/26/09. These drawings are acceptable. However the drawings are further objected to for the reason(s) set forth above.

***Claim Objections***

3. Claim 17 is objected to because of the following informalities: claim 17, line 1, "A system" should be inserted; claim 17, line 4, "configured to receive" should be replaced by "for receiving" so as to follow the "means plus function" format; line 8, "configured to establish" should be replaced by "for establishing"; line 11, "configured to correlate" should be replaced by "for correlating" and line 14, "configured to synchronize" should be replaced by "for synchronizing". Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 17, the structure corresponding to the means for receiving is understood to be 1002 ; the means for establishing is understood to be 901, the delay block 902 and the signal line parallel to the delay block 902; the means for correlating and determining is understood to be (components 903-909). However

examiner is unable to find the structure corresponding to the means for synchronizing. the only remaining circuitry in fig. 9 is component 910. Component 910 however is channel estimator, not a synchronization block.

With respect to claim 18, The structure corresponding to the means for receiving is understood to be 1002; the FFT means is understood to be 901, the delay means is understood to be 902; the correlator means is understood to be component 903, accumulator means is understood to be 905-908, means for detecting is understood to be block 909. . However examiner is unable to find the structure corresponding to the means for synchronizing. The only remaining circuitry in fig. 9 is component 910. Component 910 however is disclosed as a channel estimator, not a synchronization block.

Claims 19-20 are rejection for being dependent on a rejected base claim.

***Allowable Subject Matter***

6. Claims 1-14 and 16 are allowed.
7. Claims 17-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
